Late last night, I overheard
What I'm praying were just careless words
People saying that they've seen you with another
Friends have been avoiding me
Trying hard to hide their sympathy
But I can see right through their covers

I can't believe this is something you could do
I can't be free 'til I hear it straight from you
Say it's not true
Say it's not true

Ooh, they say the truth shows in the eyes
Ooh, darlin', look at me, then tell me all I've heard are
only lies

Tell me that he's just a friend
Tell me this is not the end
Tell me that it's all a misunderstanding
Things aren't always as they seem
Wake me from this bad, bad dream
Tell me that it isn't really happening

I can't believe this is something you could do
I can't be free 'til I hear it straight from you
Say it's not true
Say it's not true
Say it's not true
Say it's not true
