Hey, can you tell my heart is aching  
You, It's only you that's on my mind  
I, I can not fight this feeling  
Now, now I know why love is blind

From the top of my world to the bottom of my heart  
Just the way that you are, you're the one my shining  
star  
Everything that you do, everything that you might say  
You're the love of my life, don't you ever go away

Love, I feel my heart could beat forever  
Kiss, when it's slow with tenderness  
Touch, when we're making love it's heaven  
Time, girl with you, there's only bliss

From the top of my world to the bottom of my heart

Just the way that you are, you're the one my shining  
star  
Everything that you do, everything that you might say  
You're the love of my life, don't you ever go away  
Don't you ever go away

You are everything I wanted  
And I would love to love you girl  
To the end of time

From the top of my world to the bottom of my heart  
Just the way that you are, you're the one my shining  
star  
Everything that you do, everything that you might say  
You're the love of my life, don't you ever go away

*[Repeat]*
