I FORGOT â€¦. LIONEL RICHIE

Honey here I am
I am standing here all alone
Trying to get back to you
I know I did you wrong
By walking away
And now I need to tell you
I know now what we had was a good thing
I know now how much I lost without you without you

I forgot it was your love
That captures my mind
I forgot it was your dreams
That turned my life around
I forgot it was your world
I wanted to see
I forgot it was my wish
To make it you and me

Tell me what I do
I am going out of my head
I am wanting to and I am missing u
I can't believe where I am
What have I done to my self?
Girl I didn't mean to hurt us
I see now that YOUR love was all I needed
I see now how much I was wrong
So forgive me
So forgive me
Forgive me

I forgot it was your love
That captured my mind
I forgot it was your dreams
That turned my life around
I forgot it was your world
I wanted to see
I forgot it was my wish
Oh
To make it u and me

Tell me what I do
I am going out of my head
I am wanting and missing you
I cant belive where I am
What have I done to my self?
I really didn't mean to hurt us
No

See now I didn't have to play the game
I was playing
I see now that I was wrong
So wrong
Can u hear me?
Please forgive me

I forgot it was your love
That captures my mind
I forgot it was your dreams
That turned my life around
I forgot it was your world
I wanted to see
I forgot it was my wish
To make u and me
I forgot all about you
I forgot about me
I forgot about all the things we wanted together
I forgot about the dreams
Oh I forgot about those dreams
Oh how much I love you baby
Oh I forgot about it
I forgot about it
I forgot about it
Oh I forgot about it
I forgot about you
Oh I forgot about me
Let's get back together
Let's get back together

Hey hey no
I forgot about me
Oh honey
I forgot about me
I forgot about this love
That was supposed to be
I forgot about it baby
