I still believe
In you and me, oh
Still believe the sun
Will shine on me

I still believe there's a reason
There's a meaning to why we're here
There is a place where we can go to
Where we don't have to live in fear

They're trying to tell me that the moon is in the ocean
And I'm just dreaming my life away, oh

But I still believe
In you and me
Still believe the sun
Will shine on me
I still believe
True love is the answer and
Don't turn away
'Cos I'm believe in love, that's the only way

I'm believe in every moment
Every heartbeat that we're here
And we're a part of each other
And forever it seems so clear

I don't believe that I'm just walkin' in the darkness
Or that I'm lost without a prayer, ohh

I still believe
In you and me
Still believe the sun
Will shine on me
Oh, oh your love is the answer
And oh, oh it's right here
(It's right here)
And I know we've got to remember
It's only together for now and forever

I still believe, ahh
In you and me, ahh

Still believe the sun
Will shine on me
I still believe
That true love is the answer
Don't turn away, ahh
'Cos I believe in love, 'cos I believe in love
'Cos I believe in love and that's the only way

I still believe
In you and me
(That's the only way)
(I believe)
Still believe the sun
(Yeah I believe)
Will shine on me
(I believe yeah ha)
(No you got to do when I say I believe)
I still believe
(Yeah I believe)
(Yeah I believe)
True love is the answer
(Say you are here)
Don't turn away
(Yeah hey ah, oh)
'Cos I believe in love, that's the only way
(Oh)
(I believe)
(You've got to believe it that's the only way)
'Cos I believe in love, that's the only way
(Yeah)
(It's the answer, I know it's the answer, yeah)
'Cos I believe in love, that's the only way
(Yeah yeah yeah)
