No tears No tears No more

No game No game said I find another way
No games not tonight
Before not up here on this cloud
No time for yes today
Let me explain yeah

I got a new woman loving me in every way
That she get
All she wanna be is
Falling in my bed
Safe to safe it out
In a better way a better way

You got a new woman
Loves to walk around you
So did my ??
Cupid most have found her
Its nothing like that
Loving this woman
Does anybody understand

That Im in love (Im in love)
And I think I found the real thing (real love)
I love to makes you honsy
You got me singing lalalala
