The bottles are all empty, the potion's gone  
Powers promised like the dawn, it just won't carry on  
I leave the empties on the doorstep, to be filled by time  
Is he a wizard or a teacher? Is she a friend of mine?

I left a note and signed with haste  
Give me a packet of peace to taste  
And if you're willing, an extra crate  
Of any power to combat hate

'Cause though I heard that hate brings pain  
And I need love to take the strain  
A parcel of extra blessing  
To keep my days from guessing

Oh teach me  
The words won't turn the way I ask them  
Oh reach me  
Show faces true before I pass them

And all the world is out of key  
And it shrinks inside me  
So many faces to be friends  
When all the madness ends

I'll leave my mind beneath the mat  
So you can let yourself in  
If you can stand the mess then stay  
But I'm not entertaining

I feel the richness of our days  
Are like smoke to hold  
I'd make a paper heart to love you  
If I knew where to fold

But I must sit and just keep trying  
Until I see the shape I seek  
Because I must learn to sculpt the strength  
For everyday that I'm weak

Oh teach me  
The storms won't turn the way we aim them

Oh reach me  
The dreams grow wild before we tame them
