### "A Hole Of Black"

In the dark i see everything is so much  
Clearer when i go through the door and i step  
Into a world for man unknown you can't  
Hold me back 'cause there is something new unseen  
before

I've found what i want, it's true! and i'm  
Never coming back there's nothing that  
You can do! going through a hole of black

As far as i can see in the misty haze before  
Me a white and shiny light i can feel it  
Piercing through my armoured suite  
Don't you hold me back i'll see you  
Somewhere else, another world
