I am the mind intruder  
I am the primal fear  
Rise up above religion  
Racial war is here

Welcome to Helter Skelter  
Face the apocalypse  
This is the final shelter  
I'll rule the world up there

Let the fire burn, in the shadows we will hide  
Let the fire burn, the phantom rider cries

Servants of Armageddon  
Soldiers of sanity  
Wake up to termination  
Who's your enemy?

Who is the tribal traitor?  
Where are my wives of blood?  
Don't cry, it's an illusion  
The writings on the wall

Let the fire burn, in the shadows we will hide  
Let the fire burn, the phantom rider cries  
Let the fire burn, in the shadows we will hide  
Let the fire burn, the phantom rider cries

Let the fire burn, in the shadows we will hide  
Let the fire burn, the phantom rider cries  
Let the fire burn, in the shadows we will hide  
Let the fire burn, the phantom rider cries
