"Lost In You"

Mm, I get lost,
I get lost in you like a,
Prisoner walkin' towards the ocean,
It's hard to imagine how something could swallow
You whole

I get lost, I get lost in you,
Pearls in your eyes,
Keep mer alive,
Wrap me up in a glow,
Soft as a shaddow,

Oooh oooh oooh x3

There was a time,
I would suffer in silence,
Feel like my pain didn't matter didn't matter,
I thought,
Keep on walking,
Just show your devotion,
They don't know you at all

Yeah, I am lost,
I am lost in you,
I am no longer searching,
I'm no longer yearning, just learning,
The freedom of floating on.
