When you know that you finally made it,
Can you make your way back, make your way back
home?
I ventured into the dark to search for a torch
That would light the path ahead
Over mountains so high, far and wide,
Searching for a place to rest my head.
On different roads I traveled, but I remained the same.
Facing fears with no fear on my face.
Through all the roads I traveled, I remained the same.
Facing my fear.

When you know that you finally made it,
Can you make your way back, make your way back
home?
You're on your own, you're all alone out here.
Find your way back home... (find your way back home)
From the darkness I came,
In my hand was a torch that I found along the way.
And in the distance, I saw a house with a light that lit
the porch.
I found a place to rest my head.
On different roads I traveled, but I remained the same.
Facing fears with no fear on my face.
Through all the roads I traveled, I remained the same.
Facing my fears.

When you know that you finally made it,
Can you make your way back, make your way back
home?
You're on your own, you're all alone out here.
Find your way back home.
