Follow me through the storm
Oh baby, I'll keep you warm
In my arms

We're gonna get hit so hard, up ahead

With no sun above our heads
Watch out and don't forget
About the shadows that encircle our heads

With no sun above our heads
With no sun above our heads
With no sun above our heads

Oh, you know that
They're trying to get us
If we go down we go down together
Forever you and I

The black hounds are gonna try to find us.
Where will we go?
If you start to fall away
I promise that I'll never let go

When the rain comes falling down
And there's nowhere to hide
Just know that I'll be there
A silver lining in your black sky

With no sun above our heads
Watch out and don't forget
About the shadows that encircle my head

With no sun above our heads
With no sun above our heads
With no sun above our heads

Oh, you can call out my name
And know that I will be there for you
We're here in this field
In the middle of a storm

As the thunder shakes our eyes
I look to you and say
I'm not trying to be your savior

My arms are so weak
But if you follow them and let go
And I'm not trying to be your savior
I'll never let you fall, I'll never let you go

With no sun above our heads
Watch out and don't forget
About the shadows that encircle our heads

With no sun above our heads
With no sun above our heads
With no sun above our heads

Oh, you know that
They're trying to get us
If we go down we go down together
Forever you and I

Oh, you know that
They're trying to get us
If we go down we go down together
Forever you and I
