I've got to break away, i can, i can, i can
all seems too unreal for me
i'm just a handsome freak, please tell me what is left
one step forward, two steps back
step back now, what's left now?
sitting on the top of the world, i know, i know, i know
i can't take it anymore
i don't want to hear these words
you're made to take the fall
one step forward, two steps back, step back now!
fake boys, fake girls, fake boys they can lie
nothing more for me to say, i wait, i wait, i wait
and i don't like them anyway
i've got to break away, i can, i can, i can, all seems so
damn fake to me
step back now, what's left now?
when i say please get down on your knees take the
crown
tell a little lie, black and blue, like fake boys/girls
always gonna do
