Turn it on today, a sunny day.
Listen what's up on the radio.
But do you like the tracks? poppy smacks!

Someone has to turn up the radio.
Do you feel the same.
Tell me what goes wrong,
Someone has to turn it down.
It's a sunday, it's a monday or a friday.
every day the same,
will it never change.

all so god-damn lame.
On the radio - soundwave treasure.
On the tv show - soap for pleasure.
On and on, what you have to know

And you're avoiding complications - easy listening
sounds.
It's on the radio.
Now you got your name.
And i'm remembering the times.

On the first row of the lounge.
We turned it up and made it, up and made it, up to
make it .

When you confused my state of mind .
On the tv show - soap for pleasure .
On and on, what you have to know
On the radio - soundwave treasure.
It's on the radio .

Now it's up to you - refine the radio !

Too late to break the wellknown rules.
On the radio - soundwave trasure.
On the tv show - soap for pleasure .
On and on, what you have to know
It's on the radio .
