

Liquido "Ordinary Life"

Visit "[Ordinary Life](#)" on MotoLyrics.com

What has come of you
fadin' into gloom
blackening everything that we achieved
thought I felt a kill
an underrated skill
catching but heavily quite a disease
givin' some crap
it is to show you where my head is at
it's but a shame
this is some
ordinary life

now I know the score
the storyline you store
has but an end that you will not release
requiring a plan
some pattern for the clan
and nothing is quite what it seems
didn't I swear
it's such a beautiful dress that you wear
it's but a game
this is some
ordinary life
