Parkdrive 31 and we've been waiting for so long,
So you got me on my knees,
I'm calling you my Baby please,
When we're demanding our relationship ahead.

Everybody knows one love must die - the other grows,
And though I sometimes like the rain,
I seldom go against the grain,
Distracting me - I got to pass the test in me.

We'll make it,
So leave your chance to break it,
And on the other side - we'll stake it,
Ain't no need to fake it,
So let us be so free.
It has chilled me to the bone,

All the tantrums we have thrown,
Then you gave me proper fill,
For you got that certain thrill,
Smooth on the top and rough-skinned underneath,
Our bliss was in the cards,
We'll never change but time goes by,
We dreamed of driving open cars,
We had to face the human lie,
When we embrace,

I feel your pulse, pulse of the feedback.
We'll make it,
And on the other side - we'll stake it,
So leave your chance to break it,
Ain't no need to fake it,
So let us be so free.

We'll make it,
So leave your chance to break it,
And on the other side - we'll stake it,
Ain't no need to fake it,
So let us be so free.

In my mind, in my mind,

In our minds.. Paralyzed,
And I know that I'll survive,
When you made me compromise,
That is what you told me lately
In that line,
And you said my delight,
When I was that far behind,
Paralyzed,
That is what you told me lately,
When you made me compromise,
And I know that I'll survive,
That is what you told me lately.

So leave your chance to break it,
We'll make it,
And on the other side - we'll stake it,
So let us be so free.
Ain't no need to fake it,

So leave your chance to break it,
We'll make it,
So let us be so free.
And on the other side - we'll stake it,
Ain't no need to fake it,

We'll make it,
So leave your chance to break it,
And on the other side - we'll stake it,
Ain't no need to fake it,
So let us be so free.

We'll make it,
So leave your chance to break it,
Ain't no need to fake it,
And on the other side - we'll stake it,
So let us be so free.
