

Lira "Feel Good"

Visit "[Feel Good](#)" on MotoLyrics.com

I just wanna feel good everyday
I wanna wear smile upon my face
I wanna feel the joys of the day
I wanna feel alight in every moment
Said I won't waste time on feeling blue
I won't waste time on things I can not change
I'm gonna live these days as best as I can
Doing everything that feels right

Singing la la la lala la

I wanna hear the laughter of a child
I wanna feel the hug from a loving friend
I wanna hear "I love you" every now and then
I wanna show somebody that I care
Cause feeling good is a choice that we all make
Just like a smile is a small effort you make
I love to feel the nudeness of a brand new day
Happy to be alight today

Singing la la la lala la

*** joy within my soul
I feel good today
Yes I do o o
