Verse 1:

Ya'll never really know me from the stories I tell  
From the lifestyle I lead and the records I sell  
Caught up in situations detrimental to me  
And I been through every war just for the world to see  
(That time) is always moving situations do change  
(And Things) don't always work out just the way that we  
planned  
(Still Stand) necessary be my friend and my foe  
Either love me or you hate me, that's how the game  
goes  
(If it's wrong) to be respected never ever say die  
(Remain Strong) never neglected spread my wings and  
fly  
(Like You) Ive been though struggles so much stress on  
my brain  
Actin' out my life on stages and still had to maintain  
(Question every decision) My intentions were good  
Twist the story all around and leave me misunderstood  
(Imagine That) No privacy but that's the price of this  
fame  
(Under attack) my destiny to be a soldier through fame

Chorus:

Let me live live  
Let me live  
In in side inside intelligence  
Say say say say what you gotta say  
Always asking you will amazed  
Let me live live  
Let me live  
In in side inside intelligence  
Say say say say what you gotta say  
Always ask and you will amazed

Verse 2:

Just to make it in the world and go against all odds  
Come from the gritty inner city to a superstar  
Number one hits consistently for ten long years  
Put my soul in every project my blood sweat and my  
tears  
Ya'll know my status  
Left eye the badest  
Underestimate don't hate and I keep it lavish  
But it don't mean nothing If I cant find peace of mind  
Packing all distractions away leave them behind  
Say goodbye hard times small crimes and felonies  
A new beginning im winning envisioning the breeze  
I'm dressed in all white linen and falling to my knees

Thankful for all that's been given, I'm living, with ease  
Tropical trees 90 degrees, please  
Do like the birds and the bees and start a family  
So remise on every line that I wrote  
Know that I never will surrender and its truth that I  
spoke

Chorus:

Let me live live  
Let me live  
In in side inside intelligence  
Say say say say what you gotta say  
Always asking you will amazed  
Let me live live  
Let me live  
In in side inside intelligence  
Say say say say what you gotta say  
Always ask and you will amazed

I flew I flew like water like water  
Am I desire like fire like fire  
I'm picking up the dirt from the earth the earth  
Imaging I'm the wind redelivering from people within  
I flew I flew like water like water  
Am I desire like fire like fire  
I'm picking up the dirt from the earth the earth  
Imaging I'm the wind redelivering from people within

Chorus:

Let me live live  
Let me live  
In in side inside intelligence  
Say say say say what you gotta say  
Always asking you will amazed  
Let me live live  
Let me live

In in side inside intelligence  
Say say say say what you gotta say  
Always ask and you will amazed

Let me live live, let me live  
Let me love love, let me love  
Let me learn learn, let me learn  
Let me laugh laugh, let me laugh  
Let me see see, let me see  
Let me say say, let me say  
Let me smile smile, let me smile  
Let me ask ask, let me ask
