It's not your fault, I know you try
And I'm not the only thing in your life
But these long nights
Get to me like a bad dream
And I die

CHORUS:

A woman gets lonely, baby
If you would only love me
The way you used to do
If you would hold me darlin'
Tell me you want me
More than anything
Cause I need you
I need you to be my man
A woman gets lonely

I miss your touch, the man I knew
Those secret ways you'd turn me loose
I'm not strong now
And I can't go on living this way
Without love

REPEAT CHORUS

A woman gets lonely
Maybe tonight it will be right
Maybe tonight you will be mine
Come on, hold me
Hold me, like you know me

REPEAT CHORUS
