You say we have nothing in common
I wouldn't say that if i were you
All of us come in through the same door
That much if nothing else i know is true
All of us will very soon be leaving
We were brought here, soon we will depart
Now i don't care if someone says i'm foolish
Cause while i'm here i'm singing from my heart

Chorus

There's just one life coming from that one place
There's just one face and it's your face
There's just one life going to that one place
There's just one face and it's God's face
And it's in
Everyone it's in every place
It is everywhere that one face
I can see it shining through
Can't you see it shining through
Don't tell me that you don't
Just tell me that you do

I wouldn't want hurt, i wouldn't
I wouldn't wanna to do you harm
All of us came in through the same door
Now would you let me sleep in your arms
All of us will very soon be leaving
We were brought here, soon we will depart
Now i don't care if someone says i'm foolish
Cause while i'm here, i'm singing from my heart

Chorus

There's just one race and it's the human race
There's just one face babe it's your face
I can you see it shining through
Can't you see it shining through
Don't tell me that you don't
Just tell me that you do

There's just One Life
