"A Feast"

She walks in a desert with unwanted toys
Make me a feast
When it's all over God help us all

How in the world
How in the world

Under your color and inside your bones
Give your good friends a break
What of the ivory vase in the room

How in the world
How in the world

All of the soldiers speaking the truth
Give your good souls a rest
What of the succulent suckling pig

How in the world
How in the world

Same old stories they wouldn't believe
Give your good self a break
What of the foie gras, God help us all

How in the world
How in the world
How in the world
How in the world...
