In your face
In your face
You are in your face
Several days I go away
To where I stay put

Fraidy cat
Fraidy cat
'Fraid of being frightened
Many days I need someone
To take me home
Somewhere, safely
Safely put down

Who can say
Who can say
Where are all the animals
There are days they go away
To where I stay sometimes
Safely, safely put down

Fraidy cat
Fraidy cat
You are being frightened
Certain days
We'll have to come
Back to earth
