I need a fix  
A little one  
And then it's over  
Then i'm done  
I got my own  
I need to find  
But in between  
You are a lifeline

But if i do (stop)  
But if i don't (stop)  
It doesn't matter  
I probably won't (stop)  
Without you here  
Without your love  
The world is just there  
It doesn't move me

I want it now  
I want it bad  
And when it's done

I'll start over  
And i can give  
Oh i could give  
But when your're in  
I give better

Without you here  
Without your love  
The world is just there  
It doesn't move me

I got my own  
I need to find  
But in between  
You are a lifeline
