If you saw me

Like I see you

Should I tell you?

What if I do?

I know it lives and does

'Cause I felt so yesterday

But as I live and breathe

It always goes away

If I saw you

Like I see me

Have to warn you silently

I know it lives

It does 'cause I felt so good today

And always like again

I know it's gonna go away

If I saw me like I see you

I would love me

What if I do?
