Under my cloud
Out of my hands
Lost in a feeling
That I can't get out of

Wondering why
Wasting our time
Wasting all I love
In the shiny side of my life

I need you near me
Some ???
I need you near me, oh

Under my hand
Out of my head
Lost in confusion
I can't say we're out yet
Under the light
What if I died
What if halfway though
I turn around and change my mind

I need you near me
Some ???
I need you near me, oh
