Save Your Breath, I know the story
I've heard it all before.
Go read the letters that I wrote you
They're scattered on your floor

Chorus

Sitting here patiently thinking I have to let you go
I already know what you're going to say
I've heard it a million times before
Don't want to hear it anymore
It's time I let you go

Save your Breath, as you can see
There's no more fooling me, No
I stayed up thinking late last night
Till I saw the morning light, I was...

Chorus

Sitting here patiently thinking I have to let you go
I already know what you're going to say

I've heard it a million times before
Don't want to hear it anymore
It's time I let you go

I wanted to spend the rest of time with you
But now we're through
Why do you say that you love me
Say that you need me, just because you see
There's nothing you could do or say to make me want
to Stay
I already know what you're going to say
I've heard it a million times before
Don't want to hear it anymore.
It's time I let you go...

Why I tried to be by your side, You just denied
I know what you're going to say, Yeah
