Why do you have to leave me now and go home?

Summer, it starts when I see you
My smile, it parts when I hear you talking to me
My heart, it beats when it's me who I know you love
And my mind, it just goes crazy
Knowing I'm going to be with you always

I ask you if you will hold my hand
And you ask me if I'll kiss you
You want to know how much I love you
I say, "Well, I guess I'll miss you"

Well, I call you back on the telephone
'Cause you call me all the time
'Cause I need to know the same of you
And you the same of me that you're still mine

Tell me a story about me and you
And I know how it will end, happily ever after
Just like it will begin

And I'll show you a happy boy and a girl
If you show me a picture of me and you
When it's time to leave, I'll ask you what to do

Yeah, I ask you if you will hold my hand
And you ask me if I'll kiss you
You want to know how much I love you
I say, "Well I guess I'll miss you"

Well, I call you back on the telephone
'Cause you call me all the time
'Cause I need to know the same of you
And you the same of me that you're still mine

That you're, that you're still mine
That you're, that you're still mine
