If it's really love you'd follow it forever  
Would you wander for me?  
Even though you think I'm lost and you know better  
Would you wander for me?

This wandering is more than filling  
Footprints right behind me  
How far would you go outside  
The lines of just to find me?

Letting go of anything that grounds us  
Would you wander for me?  
Even though there's darkness all around us  
Would you wander for me? 'Cause I'd wander for you

Wandering is more than filling  
Footprints right behind me  
How far would you go outside  
The lines of just to find me?

When you see that I am gone  
To the edge and way beyond  
Would you, would you  
Would you wander for me?

Doesn't matter where we are  
We can be our northern star  
Far above the earth and weather, together

Wandering is more than filling  
Footprints right behind me  
How far would you go outside  
The lines of just to find me?

When you see that I am gone  
To the edge and way beyond  
Would you, would you  
Would you wander for me?  
Would you wander for me?

If it's really love you'd follow it forever  
Would you wander for me?
