Every time you walk in
I feel somethin' amazing begin
Like a storm, like a flood in my heart, yeah

Every touch, every word
Feels like music that I've never heard
You give me, somethin' special from the start

[Chorus]
Just when I think that I finally found some good love
You go take it away
Just when I think that I finally found some good love
You go give it away to someone who's no good for you.
Boy you make me see, you're no good for me
No good for me, good for me, no good for me

Every smile makes me fly
Makes me feel like I'm ten stories high
Can't come down - can't let go
Of your heart

[Chorus]
Just when I think that I finally found some good love
You go take it away
Just when I think that I finally found some good love
You go give it away to someone who's no good for you.
Boy you make me see, you're no good for me
No good for me, good for me, no good for me
