Verse 1:

Everytime you walk in
I feel somethin' amazing begin
Like a storm, like a flood, in my heart

Every touch
Every word
Feels like music that I've never heard
You gave me something special
From the start

Chorus:

Just when I
Think that I finally found some good love
You go take it away

Just when I
Think that I finally found some good love
You go give it away
To someone who's no good for you
Boy you make me see

You're no good for me

No good for me
Good for me
No good for me

Verse 2:

Every smile
Makes me fly
Makes me feel like I'm ten stories high
Can't come down
Can't let go
Of you're heart

Chorus:

Just when I
Think that I finally found some good love
You go take it away

Just when I
Think that I finally found some good love
You go give it away
To someone who's no good for you
Boy you make me see

You're no good for me

No good for me
Good for me
No good for me

Just when I
Think that I finally found some good love
You go take it away

Just when I
Think that I finally found some good love
You go give it away
To someone who's no good for you
Boy you make me see

You're no good for me

No good for me
No good for me
No good for me
No good for me
No good for me
No good for me
