I've seen alotta women from all around the world  
different situations all different kinds of girls  
no matter who you are and no matter were you live  
keep your head up you gotta think possitive  
i know life feels like a struggle some times  
multiple senareos, playin' wit' your mind  
whether you are rich, whether you livin' poor  
where women of the world and thats for sure

free stance in my eyebrows my dedication  
to the women of the world  
they say more independence, more
