Artist/Band: Presley Lisa Marie
Lyrics for Song: Turn To Black
Lyrics for Album: Now What
Tell me tell me did you think you'd catch me
Did you think that if you watched me
Id be just like the rest of them
Did you think that you could mold me scold me
Did you think that you could own me, yeah
Did you think that you could put a saddle on me
Show me ride me cloud me warn me you could control me
Tell me did you think I'd fit you like a bonnet with a little flower on it
Or a tear inside your sonnet

So much unspoken it will never be heard by you

Can you take it back
Can you make it go away
Wish I never knew this
I did everything you said
It all just turned to black
And I can't do this

Did you like the voodoo that I put now on you
When I slither in my closet, sweat vengeance like a faucet.
Was I the only monkey junkie flunky who turned out to disappoint you
Honey
Yeah I am
Did I stop computer porn cause you didn't turn me on
No I didn't
Did I get tired of your **** and give you my ****ing lip, yeah I did

Are my unheard objections invalid to you

Can you take it back
Can you make it go away
Wish I never knew this
I did everything you said

It all just turned to black
And I can't do this

Ill stay on the freeway of the damned souls now
Wish I never knew this
The address that you gave me was too overrated
I can't do this

Tell me tell me did you think you'd catch me
Did you think that if you watched me
Id be just like the rest of them

Can you take it back
Can you make it go away
Wish I never knew this
I did everything you said
It all just turned to black
And I can't do this

Ill stay on the freeway of the damned souls now
Wish I never knew this
The address that you gave me was too overrated
I can't do this
