

## Lisa Marie Presley

### "What If"

Visit "[What If](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You've spent too many years  
Walking alone spending time  
Like I spend money on beer  
I used to be that way  
Expected too much I guess  
Two days and get me out of this mess  
So come on now  
Let's turn the darkness to light,  
Don't be afraid and trouble will stay out of sight  
What if my life crashed down  
What if the sky grows to dark  
Would you ever see the spark  
What if the wind's too strong  
What if I always do you something wrong  
Burnt once, now I'm sore  
I'd rather stay outside and have fun  
While you're opening doors  
I used to be that way  
Expected too much I guess  
Two days and get me out this mess  
So come on now  
Let's turn the darkness to light,  
Don't be afraid and trouble will stay out of sight  
What if my life crashed down  
What if the sky grows to dark  
Would you ever see the spark  
What if the wind's too strong  
What if I always do you something wrong  
You're so, you're so afraid  
My baby  
And love, love  
I will be there  
I will be there  
What if my life crashed down  
What if my life crashed down  
What if the sky grows to dark  
Would you ever see the spark  
What if the wind's too strong  
What if I always do you something wrong
