Tell me that I'm wrong, well I don't think you know
Tell me that you care, well I don't think you do
Say you're getting old, it's not like I would know

Don't say I will

You jump to her defence, again
Tell me that you care, I don't believe you do
I'm jealous and I'm mad, you don't know what I might
do

Don't say I will
Don't say

It must be easy, walking from me
It must be easy, walking from me
It must be easy, walking from me

Don't say I will
Don't say
