You've been through this before  
You know where to find me  
Someone's aiming at your cellardoor  
There's someone behind me

Sister, sister can't you see  
That memories surrounds me  
I recall what used to be  
Love can not blind me

Are you holding up joy  
Do you still think it's all about you  
With your head on desperate plan  
And you can every grain of sand  
And still your fingers to my hand  
And we don't stand a chance

Searching through a pile of debree  
Your whole life's down there  
Searching makes you feel free  
Nothing else come

I'm waiting for a change to come  
My expectations are low  
You know, this is not the time for regret  
It's time to let go

Are you holding up joy  
Do you still think it's all about you  
With your head on desperate plan  
And you can every grain of sand  
And still your fingers to my hand  
Wish I could make you understand

Are you holding up joy  
I guess we all need to know  
Mirror, mirror you see  
It's refelecting me  
There's a hole in the sea

And you still think it's all about you  
When you're kneeling on the floor

Like a prisoner of war  
Still you begging me for more  
You know I've been through this before

Are you holding up joy  
I guess we all need to know  
Mirror, mirror you see  
Who's refelecting me  
Are you missing me?

Are you holding up pride  
I guess we all want to know  
Mirror, mirror you see  
Are you missing me?
