(I'm not sure if these lyrics are right.
Because I couldn't find them anywhere so I just
listened to the song and wrote them down... I hope this
is right :P)

Hey now, don't say goodbye
Hey the world ain't so big and the skies aren't so
High high high, high high high

Hey now, oh don't cry
Cause you tears are as cold as betrayal
Lay hey hey, lay hey hey

I understand it's hard and all
But you know baby stand up tall
Just hold my hand and don't let go

Cause I'll be holding yours forever
In my mind x3
Oh in my mind

You understand it's hard and all
But you know baby stand up tall
Just hold my hand and don't let go

Cause I'll be holding yours forever
In my mind x3
Yeah in my mind, oh oh
