Heart is lost
Like a lost little one
I can't stop
Thinking there's something I forgot...

Won't forget you, won't forget you
Won't forget you, won't forget you

Young one,
There's a big sun,
And my love, my love, my love, my love,
Shines on!
[X2]

Hopelessness
Well it's over now
Spiritus
You're still with me somehow

Won't forget you, won't forget you
Won't forget you, won't forget you

Young one,
There's a big sun,
And my love, my love, my love, my love,
Shines on!
[X2]

Won't forget you, won't forget you
Won't forget you, won't forget you
Won't forget you, won't forget you

Young one,
There's a big sun,
And my love, my love, my love, my love,
Shines on!
Shines on!
Shines on!
