I have looked so long for lovem  
I think I got to give it up  
My heart has had enough  
From now on, I think I gonna live it up  
I'll never let someone hurt me again  
If they knock I just wont let them in  
Who's that boy  
You can always make exceptions  
Who's that boy  
He's got my full attention  
I could use that boy  
To get me some affection  
Tell me what's his name  
Who's that boy  
I need a quick identification  
Who's that boy  
Here I go again  
I could use that boy  
If I don't make my move right now  
I don't wanna choose right now, oh no  
What else can I do  
I all thru with playing games  
I'm tired being treated rough  
Maybe you can see I've changed  
From now on, I'm not a little powder puff  
I wont give in like some misguided fool  
I promise to live by that rule  
Who's that boy  
You can alway make exceptions  
Who's that boy  
He's got my full attention  
I could use that boy  
To get me some affection  
Tell me what's his name  
Who's that boy  
I need a quick identification  
Who's that boy  
Here I go again  
I could use that boy  
If I don't make my move right now  
I don't wanna choose right now, oh no  
But what else can I do

(Talked)  
Who's that boy?  
I wanna show him what love is  
Hey boy... I've got something I wanna show you (giggle)  
Who's that boy  
You can always make exceptions  
Who's that boy  
He's got my full attention  
I could use that boy  
To get me some affection  
Tell me what's his name  
Who's that boy  
I need a quick identification  
Who's that boy  
Here I go again  
I could use that boy  
If I don't make my move right now  
I don't wanna choose right now, oh no  
Who's that boy  
You can always make exceptions  
Who's that boy  
He's got my full attention  
I could use that boy  
To get me some affection  
Tell me what's his name  
Who's that boy  
You can always make exceptions  
Who's that boy  
He's got my full attention  
I could use that boy  
To get me some affection  
Tell me what's his name  
Who's that boy  
I need a quick identification  
Who's that boy  
Here I go again  
I could use that boy  
If I don't make my move right now  
I don't wanna choose right now, oh no
