Iâ€™m tired of living in your world of darkness
Iâ€™m suffocating you donâ€™t seem to care
But I forgive you
Itâ€™s not your fault, I been too scared to see it
This is it and I know I canâ€™t stay here with you
I feel like, Iâ€™m about to lose everything
But, sometimes you gotta go with what your heart is
saying
Iâ€™m standing on the edge
But, Iâ€™m not afraid of falling down
Iâ€™m standing on the edge of a new beginning
I got to feet on the other side
Gonna spread my wings and fly
Iâ€™m standing on the edge of a new beginning
I didnâ€™t want to let you go cause
I didnâ€™t want to be alone
But, we were alone together
Its funny how Iâ€™ve gotten so much stronger
Cause I had to pull myself away from you
I feel like, my whole world is tumbling down
But somehow, I know Iâ€™m gonna land on solid ground
Iâ€™m standing on the edge
But, Iâ€™m not afraid of falling down
Iâ€™m standing on the edge of a new beginning
I got to feet on the other side
Gonna spread my wings and fly
Iâ€™m standing on the edge of a new beginning
If I donâ€™t look down, I wonâ€™t see below me
Iâ€™m gonna look ahead, into the light, into the light
Iâ€™m standing on the edge
But, Iâ€™m not afraid of falling down
Iâ€™m standing on the edge of a new beginning
I got to feet on the other side
Gonna spread my wings and fly
Iâ€™m standing on the edge of a new beginning
