Touch me I'm Electric

Take me out of your pocket
Plug me into your socket
About to launch a rocket
Yeah, yeah, yeah, yeah
If you want me then later
I'll buzz like a vibrator
An energy creator
Yeah, yeah, yeah, yeah

I can't resist, it's all over
Warranty expired
Watching you closely, I'm charged
Ain't no batteries required

Duracell got nothing on me
You know you're turning me on
And I'm-a-ready to blow
Yeah baby I'm electric
Pent up electricity
Jack me up feeling the E
You better leave me alone
If you're not ready to go
Oh baby I'm electric

Touch me I'm Electric
Touch me I'm Electric

Make me come, pull my wire
If it's what you desire
Tonight let's start a fire
Yeah, yeah, yeah, yeah
Feel me, I'm unprotected
See sparks, now we're connected
This preset is selected
Yeah, yeah, yeah, yeah

Ten thousand volts in my head ain't no way to unwind
Watch out incase I short circuit and leave you behind

Duracell got nothing on me
You know you're turning me on
And I'm-a-ready to blow
Yeah baby I'm electric
Pent up electricity
Jack me up feeling the E
You better leave me alone
If you're not ready to go
Oh baby I'm electric

I'm not gonna put up a fight
(I'm not gonna put up a fight)
Come set my body alight
(Come set my body alight)
I feel it run through my veins
(I feel it run through my veins)
It's made a mess in my brain
OH!

Touch me I'm electric
Touch me I'm electric
Touch me I'm electric
Touch me I'm electric
Touch me I'm electric
Touch me I'm electric

Duracell got nothing on me
You know you're turning me on
And I'm-a-ready to blow
Yeah baby I'm electric
Pent up electricity
Jack me up feeling the E
You better leave me alone
If you're not ready to go
Oh baby I'm electric
