Come and sit a while with me and talk
I need to have a word before you walk
Just before you go let me explain that I love you

I know that this may come as a surprise
How do you think I felt when I realized?
It hit me like a bolt out of the sky that I love you

You said that you were moving on, come Saturday
That you'd be gone, I thought of life without you and I
cried
So finally I know who I am gonna love for all my life
So say you'll be mine, please say I can change your
mind

Don't leave, don't leave now I'm in love, don't walk
away
From something that could have been so good
Don't leave, don't leave me now, I know I'll love you for
forever
For all the stars above, don't leave now, I'm in love

Looking back on all the opportunity
I didn't have a clue that the girl was me
So listen to me now that things have changed, I love
you

So suddenly my fate is sealed
'Cos only can make it real, so say you'll be mine
Please say I can change your mind

So don't leave, don't leave now I'm in love, don't walk
away
From something that could have been so good, don't
leave
Don't leave me now I know, I'll love you for forever
For all the stars above, don't leave now, I'm in love

Give me a chance to hold close
'Cos I wanna feel that you're a part of me
Know how it feels to love you tenderly
Know that I'll never have to let you go

Don't leave me now, I know
Don't leave me now, I'm sure
Don't leave now, I'm in love
