Mmm mmm
Mmm mmm

Yesterday thought my world was over
Yesterday when you said good bye
Thought I'd spend my whole life just crying
Hurting inside
Ohh but you know that

I decided to pull my heart together
And chase your face from my mind, ohh yea
From this day on all the hurt is gone
I'll be fine

I cried my last tear, last night baby
And I'm not gonna cry
Never never gonna cry
I'm not gonna cry no more
(I cried my last tear)
Ohh last night baby
(Ooo)
And one thing it true won't be crying over you, no no
Never again

I remember the pain you caused me
I remember the nights I cried
Now I'm gonna forget you bab'
Push you right out of my mind
Ohh don't you know that

I decided to find some better weather
And chase that rain right out of my sky
I'm off through being sad and blue
Tell you why

(I cried my)
I cried my last tear, last night baby
And I'm not gonna cry
Never never gonna cry
I'm not gonna cry no more
(I cried my last tear)
Ohh I cried it last night baby

(Ooo)
And one thing it true won't be crying over you

If you think I'll be broken hearted
Think it's time that you think again
'Cos this time I won't sit here waiting
Waiting here for the tears to end
Baby I refuse to be blue one more minute over you
Ooo ooh

(I cried my last tear baby)
Yes I did
(Won't be crying over you)
No never no never no more
(I cried my last tear baby)
One thing is true, won't be crying over you

(I cried my last tear last night baby)
Ooo ooh ooh
And I'm not gonna cry
(And I'm not gonna cry)
ohh no I am not gonna cry no more
(I am not gonna cry no more)
(I cried my last tear)
Ohh I cried it, last night baby
(Ooo)
One thing is true, won't be crying over you
(I cried my last tear, last night baby)
Ooo ooh

(And I'm, I'm never, I'm never cry, I'm never never
gonna cry no more)
I'm not I'm not, never never gonna cry no more
(Cried my last tear last tear)
I cried it, last night baby
(Ooo)
One thing is true, won't be crying over you

I cried my last tear, last night baby
(Ooo ooh)
I'm not gonna cry
Never never gonna cry
I'm not gonna cry no more
(I cried my last tear),
Last night baby
(Ooo)
And one thing it true won't be crying over you
