What a tale I have to tell  
Makes me shiver when I think about  
A story for my conscience  
An adventure that I can't keep quiet  
It's the story of a golden boy  
So golden he can touch your heart  
A tale of a love affair  
A love affair that never stops

Chorus:

I love the way you laugh  
And the way you tantalise  
I love it when you tremble  
And they way you  
Set me on fire  
Set me on fire

Set me on fire

Took a journey to the faraway  
And even now I think about it  
Think about the golden boy  
The boy that made my heart run riot  
If I was given half a chance  
I'd go back to the golden boy  
And carry on the love affair  
And carry on this golden boy

Chorus
