(d. pickerill/p. o'donoughue)

Chorus:

Thought police  
They will put you under  
The thought police  
They will take you in  
The thought police  
They will clean your mind out  
The thought police  
You can never win  
You can never win  
You can never, never, never, never, never win  
There are people around with problems  
Those who live in fear  
Running from the shadows  
Waiting for another year  
Thought of the secrets  
Secrets of the mind  
Thoughts can spell out danger

To the leaders of the time

Chorus

Thoughts are fleeting glimpses  
Of the future or the past  
They lock ideas in a bottle  
It's time to break the glass  
Hiding out in the daytime  
Crawling through the night  
Keeping out of danger  
Just trying to find the light

Chorus

Chorus (x2 and fade)
