Sista what you gonna do when a mista
wants to assist you
Do you act or do you slap him up
or do you breathe do you service up
listen if the boy is on a mission
Going for his do you act, do you walk away
Do you breathe, do you make his day

The choice is yours,
and you've got to make up your mind but take your
time
The possibilities are there for you and me
It's never easy, It's never easy

in a love type situation
Which way do you go
when you left the heart control the mind what will you
find
In a love type situation
if there's gonna be someone for you or me
So let him care for me

Sista when the boy wants to kiss ya
Tellin' you guys like (I'm taking you a blessing, I'm
wanting you)
Honey he wants to bleed you
What do I do, What do I say if he seems OK
Where do I go if he wants to play me out
and thinkin' he can make shout
She eyed me go away

The choice is yours,
and you've got to make up your mind but take your
time
The possibilities are there for you and me
It's never easy, It's never easy

in a love type situation
Which way do you go
when you left the heart control the mind what will you
find

In a love type situation
if there's gonna be someone for you or me
So let him care for me

in a love type situation
Which way do you go
when you left the heart control the mind what will you
find
In a love type situation
if there's gonna be someone for you or me
So let him care for me

in a love type situation
Which way do you go
Cause I'm ever gonna be with somebody
Do you really wanna know?
In a love type situation
gotta go with the flow, you're the only one
We can get it done

in a love type situation
Which way do you go
when you left the heart control the mind what will you
find
In a love type situation
if there's gonna be someone for you or me
So let him care for me
