Gotta get that feeling  
God I love this feeling  
Someone come and stop me 'cause this I'm winning  
I should have left you when I was up  
I should have left you when I was up  
I should've had enough sense to  
Get up and leave this town  
I should've had enough sense to  
It was a turn around  
Walking through the golden sands I'm quenching my  
thirst  
Jump into the fountain and I'm going head first  
Lost in a place in the sun  
And it's going down  
It's going down  
It's going down  
It's going down  
I should have left you when I was up  
I should have left you when I was up  
I should've had enough sense to  
Get up and leave this town  
I should've had enough sense to  
It was a turn around  
I should've had enough sense to  
Get up and leave this town  
I should've had enough sense to  
It was a turn around  
Lost in a place in the sun  
And it's going down  
It's going down  
It's going down  
It's going down
