i walked alone, i never tried to stay in line  
i didn't know what i was doing half the time  
i didn't know that my life would ever change  
i didn't think that anybody felt the same way  
and then you came

i said i wanna try it all without regrets  
i wanna meet the kind of folks i never met  
skipping school and smoking cigarettes  
we hadn't even really gotten started yet

pre-chorus:  
cuckoo  
lets go driving  
cuckoo  
'cause there's nowhere to go  
cuckoo  
we're in hiding  
they're telling our story on the radio

chorus:  
i fell in love with bein' defiant  
in a pick up truck that roared like a lion  
when you're with us  
you don't have to be quiet no more

people said we'd have to make it on our own  
we never though there'd be another hand to hold  
we didn't care, we never did what we were told  
they couldn't break us up, they could never turn us cold  
you and me will we were never growing old

pre-chorus

chorus

i see you now, we talk about the way it used to be  
when we were brave, we misbehaved  
yeah you know what i mean  
and you know why  
our battle cry always come back to me

cuckoo

you've got somewhere to go

chorus x2

you've got somewhere to go
