Confused and contagious
Out of rages
Oh sinner, you're my saint
You say I'm a devil You always was to rot in hell
Oh baby no you aint

Come inside my Garden
It's your one way ticket into the Promised Land
Come inside my Garden
I've got your hand oh baby right here in my hand
Bite it

Bother your men
Up and Saint
I'm the original bitch always on your brain
In '75 I ran away
I'm still here and ready to play
White Magic Witch evil incarnate
Devil got your tongue, boy you love to hate

Come inside my Garden
It's your one way ticket into the Promised Land
Come inside my Garden
I've got your hand oh baby right here in my hand
I don't bite

Slithering through the fire
It's no secret your heart's full of desire
There's a bad moon rising and there's nothing you can
do
Devil who cares Devil whos right
I dont care, just come, just come tonight

Come inside my Garden
It's your one way ticket into the Promised Land
Come inside my Garden
I've got your hand oh baby right here in my hand
Huh!
