"Lisa"

Visit "[Lisa](#)" on MotoLyrics.com

Lisa, you are the shelter for my soul
Lisa, you heal my heart when I lose control
As I let my fingers trace
Each time worn line upon your face
I know only love creates a masterpiece like you
I know it's true

Lisa, Lisa, say you're gonna live forever
Lisa, Lisa, never gonna say goodbye
Only you know who I am
Only you really understand
Nothing's gonna take you away

Lisa, I know we live in different worlds
Lisa, and I will always be your little girl
And on a stormy night
You built a rainbow to my door
I'll always remember you

Lisa say you're gonna live forever
Lisa, Lisa, never gonna say goodbye
Only you know who I am
Only you really understand
Nothing's gonna take you away from me
