What you doing with those funny little records?  
What you doing making those scruffy little tunes?  
It's only anything I'm thinking of,  
And it's not about you.

What you doing pulling those faces with your guitar?  
Don't you know that it isn't very cool?  
It's only anything I'm thinking of,  
And it's not about you.

Oh my we all die,  
And you can't take it with you,  
So wrong you hate that song and you can't come back,  
Don't mind 'cause me and I got the whole thing  
figured,  
I just don't dig it so,  
Ain't gonna cash in on the fashion no more,  
Ain't gonna cash in on the fashion no more.

What you thinking now you blown it with your woman?  
Bad and ruined in those shitty little rooms,  
It's only anything I'm thinking of,  
And it's not about you.

Got no time left for dreaming out the window,  
Lost your mind if there's nothing left to do,  
It's only anything I'm thinking of,  
And it's not about you.
