

## Little Barrie "Give Me A Microphone"

Visit "[Give Me A Microphone](#)" on MotoLyrics.com

Give me a the microphone  
and I will sing my soul  
but when the moments come  
hey  
(hey)  
(like I ain't going to do it no more)

take all they call it your favorite first  
and you won't be the first  
(hey yeah)  
like star stop ought to star  
hey  
(hey)  
(like I ain't going to do it no more)

(it's got on it to springs me down)  
ain't nothing new this summer around  
hey (hey)  
(I've seen you once I've seen you twice)  
I tell you though you realize (I tell you though you  
realize)

(you don't need mean me)  
I don't best (I don't best)  
you don't need mean me (you don't need mean me)  
I don't best (I don't best)

give me a the microphone  
(uh)  
and I will sing my soul  
but when the moments come  
yeah  
(hey)  
(you know I ain't going to make it no more)

(oh)  
(it's got on it to springs me down)  
ain't nothing cool this summer around  
oh (well well well)  
(you know I've seen you once I've seen you twice)  
(oh)  
I tell you though you realize (I tell you though you

realize)

(oh)

(you don't need mean me)

I don't best (I don't best)

you don't need mean me (you don't need mean me)

I don't best (I don't best)

hey

(it's got on it to springs me down)

ain't nothing new this summer around

yeah (well well well)

(you know I've seen you once and I've seen you twice)

I tell you though you realize (I tell you though you realize)

(you don't need mean me)

(oh)

(it's got on it to springs me down)

(oh)

ain't nothing new this summer around

oh (well well well)

(you know I've seen you once I've seen you twice)

I tell you though you realize (I tell you though you realize)

(oh)

(you don't need mean me)

I don't best (I don't best)

you don't need mean me (you don't need mean me)

I don't best (I don't best)

hey (oh)

(you don't need mean me)

(I don't best)

x4

(you don't need mean me)

(I don't best)

give me a the microphone

x

give me a the microphone (give me a the microphone)

(I don't best)

x
